📍 12A Wierzbowa Street, 00-014
Warsaw, Poland

🎓 EDUCATION

BACHELOR OF SCIENCE,
Kazimierz Wielki University in
Bydgoszcz ✉

09/2015 – 01/2019
Bydgoszcz, Poland

- Directed a team project that resulted in the creation of a fully functioning e-commerce web application, for the Software Engineering course.
- Created an AI-based recommendation system for the final year project, featured at the university's annual tech expo.

🧠 SKILLS

Frontend ●●●●●
HTML5, CSS3, JavaScript, React.js,
Next.js, Vue.js, Angular, Svelte,
Bootstrap, Tailwind CSS, Typescript

Backend ●●●●●
Node.js, Express.js, Python, Django,
PHP, Laravel, Ruby, C#

Database ●●●●●
MySQL, PostgreSQL, MongoDB,
GraphQL

CMS ●●●●●
WordPress, Shopify, Webflow,
Bubble, ClickFunnels

📌 SUMMARY

Experienced Full-Stack Developer with many years of expertise in designing, developing, and optimizing secure and scalable web applications.

Proficient in front-end and back-end technologies, including React.js, Node.js, and blockchain development.

Experienced in building high-performance systems, enhancing application efficiency, and implementing strong security measures to protect data and ensure reliability.

📁 PROFESSIONAL EXPERIENCE

Senior Full-Stack Developer

05/2023 – 01/2025 | SoftServe Poland, Poland

- **Architected scalable and secure full-stack** applications, integrating cutting-edge technologies such as GraphQL and Docker, resulting in a 50% improvement in application performance.
- **Orchestrated a team** of 6 developers designing, developing, and deploying intricate web applications; delivered 3 major projects on time, under budget, and improved client engagement by 40%.
- **Implemented multi-factor authentication** using OAuth 2.0 and JWT, fortifying security across 15 client applications and slashing unauthorized access attempts by 60% within the first quarter.
- **Optimized cloud infrastructure** by leveraging AWS services (EC2, S3, Lambda), resulting in a 20% reduction in server costs and improved application uptime.
- **Managed client** relationships, gathering requirements, presenting tailored solutions, and providing ongoing support, resulting in a 95% client retention rate and 30% growth in repeat business over a year.
- **Pioneered the adoption** of innovative technologies, including serverless architecture and containerization, reducing infrastructure costs by 20% and increasing scalability by 50%.

Full Stack Developer

04/2021 – 05/2023 | SoftServe Poland, Poland

- **Led the design and development** of full-stack applications, utilizing React.js for the front-end and Node.js/Express.js for the back-end, resulting in a 30% increase in client satisfaction and retention.
- **Integrated five external payment gateway APIs**, reducing transaction processing time by 15% and supporting a 30% increase in transaction volume without impacting application performance.
- **Refined database architecture** and optimized query performance, driving a 40% improvement in data retrieval speed for high-traffic applications.
- **Managed deployment pipelines** using AWS, ensuring timely delivery with minimal downtime, resulting in a 30% improvement in release cycle time and a 15% reduction in production errors.
- **Drove strategic** alignment between stakeholders and engineering teams by translating complex business requirements into actionable technical specifications which led to a 15% reduction in project delivery times.

Junior Web Developer

01/2019 – 04/2021 | SoftServe Poland, Poland

- **Engineered 10+ RESTful APIs** using Node.js and MongoDB, enabling seamless data transfer between front-end and back-end, which reduced page load times by 40% and improved user experience.
- **Collaborated on internal tool development** for e-commerce sites, improving codebase management with Git and decreasing deployment times by 40%.
- **Designed and implemented UI components** with HTML5 and CSS3, ensuring seamless integration with back-end systems; resulting interfaces supported 50,000+ daily active users.
